Sign up today for an intensive program geared towards the certified Tactical Medic Provider. This 24hr course over 2 days will provide you an opportunity to evaluate your current skill level in both the medicine and tactics involved in SWAT missions. This course will give you:

- The most “Up to Date” and current S.W.A.T. Operator’s Tactics
 - The current Tactical Medicine Treatment Options.
- Increasingly demanding and complex exercises/practicals.
 - Force On Force: “REAL WORLD SCENARIOS”

You will leave this program with a better understanding of your current skill level, more confidence in your abilities to operate effectively in Real World missions, and you will be able to bring back valuable training and policy ideas to your team.

When “SURVIVING” is the only OPTION!
